

Investigator Obligation to Notify Supervisors

I understand and affirm that as a prospective Principal Investigator, it is my responsibility (not ORSP's) to keep my supervisor informed about proposals submitted to ORSP for any internal programs or competitions, or through ORSP to external sponsor, as well as any awards, privileges, or services received as a result of such proposals. I affirm that I will only participate in such submissions, or accept any such awards, services, or privileges, to the extent that I have supervisory consent to do so. I will communicate this obligation to any co-investigators of such proposals as well.
